

It is very likely that congress will make some very important reductions in the internal revenue this winter. This will be done for two reasons, (1), to lighten the burden of taxation; (2), to prevent a congress from making such extravagant and needless appropriations. With a big surplus of money in the treasury there is always a temptation to make a reckless use of it. Commissioner Ramm, in his annual report, recommends congress to sweep off every vestige of internal taxation except that on spirits, malt liquors and tobacco; and he recommends a 50 per cent. reduction of the excise on cigars and cigarettes.

There are numerous candidates for positions in the coming legislature, and among them the State Journal makes the following comments on the situation: "The old clerk, Mr. C. E. Bress, of Madison, is a candidate for re-election; Mr. A. J. Turner, of Portage, who served as senate chief clerk for several years, before he became railroad commissioner, is in the field for his old-time office; and now comes Mr. E. D. Cox, of the Whitewater Register, ex-assembly chief clerk, who would like to be transferred to the desk of the upper house. For the senate secretary, two candidates have thus far made known their desires: Mr. A. T. Glaze, of the Waupesa Republican, sergeant of the last session, wishes to be re-elected; while A. D. Thorp, of Sturgeon Bay, is putting in his best endeavors for the post. The assembly being in the hands of the democrats, the aspirants for posts in the lower chamber are of course confined to that party. The members most prominently mentioned for speaker are Hon. Earl Finch, of Oshkosh, a well-known lawyer; Hon. J. R. Hinckley, editor of the Tomah Monitor, and Hon. M. J. MacBride, a prominent lawyer and experienced legislator. Captain Wm. N. Carter, of Vernon county, the defeated democratic candidate for the assembly in his district, is anxious to be sergeant-at-arms, seeing that he cannot be a voting member."

President Arthur's Annual Letter to the Senate and House.

Opposed to Postal Telegraphy: Favorable to Reducing Letter Postage to Two Cents.

Urges Reduction of the Internal Revenue and Increasing the Navy.

Recommends a New Bankrupt Law and Criticizes Blaine's Foreign Policy.

WASHINGTON, Dec. 4.—The following is the annual message of the president to congress, delivered to-day:

TO THE SENATE AND HOUSE OF REPRESENTATIVES OF THE UNITED STATES:

I have the honor to acknowledge the receipt of your message of the 27th inst., and in reply to inform you that the president has given to the consideration of the cabinet the subject of the proposed reduction of the postage on letters. The president has also given to the consideration of the cabinet the subject of the proposed reduction of the postage on letters. The president has also given to the consideration of the cabinet the subject of the proposed reduction of the postage on letters.

THE MESSAGE.

The readers of the Gazette are furnished with the president's message in full to-day. Messages, as a general thing, are not very interesting reading; but everyone who takes an interest in the welfare of the country, and desires to have a fair understanding of the policy of the administration, and of the condition of governmental affairs, should give President Arthur's message a careful reading. There are a great many points in it that are of special interest to everyone, whether he be a farmer, laborer, mechanic, merchant, business man or a professional man. The main points of the message are briefly as follows:

He does not endorse the policy of Mr. Blaine in regard to the Peru and Chili affair, and declares for a non-interference in such matters.

He makes the timely suggestion that the coinage of silver should stop, as the treasury vaults are full, and running over.

He recommends a reduction of the revenue, probably to prevent congress from making so many extravagant appropriations.

He thinks the public debt is being paid too rapidly, an opinion with which the people agree.

He recommends the abolition of the internal revenue tax, except on liquor and tobacco, and the special tax on the manufacturers of and dealers in these articles.

He wants the tariff revised, and on most articles a reduction made in duties. He believes in protection somewhat, but thinks the duties might be much lessened on cotton, iron, sugar, wool, silk, and so on.

He tells congress that there should be no river and harbor appropriation this session, as there is enough money in the treasury belonging to that fund, to last two years.

He recommends that, if practicable, each appropriation be made in a separate bill, so that it may pass on its own merits, or, at the least, that the constitution be so amended that the president may veto any item or items of an appropriation bill without vetoing the others.

He says his post office department is in a flourishing condition, and is opposed to postal telegraphy, but does not show wherein it should not be established.

He favors the reduction of letter postage to 2 cents, for the reason that the surplus of the postoffice department is greater than necessary.

The president hopes that civil service reform will receive some practical attention this session, so that the present evils regarding the appointments to office may soon be corrected.

He is opposed to the Habbell system of political assessments, and suggests that a bill which tends to suppress that outrage will meet with his cordial support.

He hopes congress will pass a bill changing the manner of voting for president and vice president, and more definitely settle the functions of the vice president in case of the president's inability.

On the question of removals from and appointments to office, the president shows that he has been more conservative than either President Hayes or President Garfield.

For points concerning the general condition of the affairs of the country, we must refer our readers to the full message. It will repay a thoughtful reading.

A New Morning Paper in Cincinnati.

CINCINNATI, Dec. 5.—The News, Judge Underwood's new Democratic paper, made its appearance Saturday. It is an eight column paper, selling at 2 cents. The information served on the Western Union office last night against the delivery of The News of the United Press association dispatches was to-day, on hearing before Judge Maxwell, of the court, postponed for two weeks, pending the final hearing. The News company is publishing bonds in \$10,000.

It is stated on good authority that John R. McLean, proprietor of The Enquirer, proposes to start a cent morning paper in particular opposition to The News, and to the rest of the morning dailies in general. A number of real estate has been made within a square of The Enquirer office, and the plan is to furnish the newspaper with proof-sheets of Enquirer news and articles to be cut out and changed to suit. Thus it will be edited with accuracy and taste in the literal sense. What effect it will have on The Enquirer is another matter, but as McLean is proposed to be a round million he is thought to be able to take money from one pocket and place it in the other, if at the same time he can do his rivals damage.

An Anonymous Brute.

WABASH, Ind., Dec. 5.—A cruel hoax was perpetrated a day or two ago on an old man named Reichmeyer, residing in Calhoun county, Mich. Some one writing over the name of the pious P. Irving informed Reichmeyer that his son, Edward, traveling in this vicinity, had been robbed and killed. The old man traveled two hundred miles and reached here last night for the purpose of taking the remains of his son home. He was welcomed by a crowd of people, and he was taken to his home. He was told that his son was not killed, but was well and happy. He was told that his son was not killed, but was well and happy.

Morn! Don't Flirt.

INDIANAPOLIS, Ind., Dec. 5.—S. J. Dunham, a brakeman on the Cincinnati, St. Louis & Chicago road, was instantly killed here last night under peculiar circumstances. He was standing on a freight car as the train entered the city engaged in the pleasant occupation of flirting with a girl. While thus occupied the train went under the Noble street viaduct and he was crushed between the cars, the wheels crushing him horribly. He was a single man, whose home was at Clark's Hill.

Banks Violating the Laws.

WASHINGTON, Dec. 5.—Comptroller McKeon recently submitted to Attorney General Brewster certain questions in regard to the acceptance of checks by national banks in excess of the amount actually on deposit, and showed that in one day more than \$1,000,000 of such checks were being put into circulation. The attorney general decided that such operations are clearly in violation of the laws of 1892 and 1893.

A MISSOURI BATTLE.

Desperate Fight Between Three desperadoes and the Populace at Moberly, Mo.

One of the Bandits Instantly Killed in His Efforts to Escape.

MOBERLY, Mo., Dec. 5.—An exciting chase, participated in by large numbers of citizens, occurred here yesterday and resulted in the death of one desperado and the wounding of two others. On Saturday three men arrived here and registered at a hotel as William and John Curry and G. Smith, of Ottumwa, Iowa. Sunday a citizen recognized them as Nicholas, John, and Richard Cook, three notorious desperadoes, whose home is at Mount Sterling, Ill., and they were further identified as three of the four men who had been arrested and held at the jail at Moberly, Mo., on Tuesday, and in which attempt to escape an aide was badly wounded. Nicholas, John, and Richard Cook, of Ottumwa, Iowa, of this city, accompanied by Officers Sledge and Keller, approached them on the street in the business part of the town at noon yesterday. John Cook at once drew a revolver and fired at Lynch. Several shots were exchanged. Then the desperadoes started on a run, followed by officers and a large crowd of citizens, who kept up a running fire with pistols and shot-guns until they were within a few rods of the jail. After doubling for several blocks came upon two soldiers standing at a rack. Two of the desperadoes turned and ran, but the third continued westward on foot, pursued by a detachment of the crowd. Nicholas and John, the two on horseback, were overtaken by a mounted cavalry company, and after receiving several wounds, Nicholas getting a charge from the shot-gun in the head, while John was knocked from his horse and a clubbed to death. They were shot in several places. Richard, fleeing alone, was pursued by Marshal Lynch and his men, and after several shots had been exchanged he fled northward, and did what the officers were bringing him back to town in a wagon. Nicholas and John were brought back and their wounds dressed. Nicholas is wounded in the head, and will probably die. John is also badly hurt. The two were shot in several places, and the men who were shot in several places. The men who were shot in several places.

As the ground is now occupied as a national cemetery, the claimant will accept its value in cash. A Revolutionary Organization.

LONDON, Dec. 5.—A new revolutionary organization has just been started in London, called the National Revolutionary League. On its list of honorary members are Louis Michel, Rochefort and Prince Kropotkin. Its leading spirit, a well-known radical and advanced writer, has issued an address to the people of England, in which he says: "There are circumstances under which political assassination is justifiable and necessary, and it is not a crime. We must have anarchy before we have peace and order. We must have revolution before we can have law. We want to do away with all existing institutions and overthrow all governments, because they are oppressive and unjust. We want to have a new government, based upon the principle of equality. We want to have a new government, based upon the principle of equality. We want to have a new government, based upon the principle of equality."

Denial of the Rumors that Vanderbilt Has Gobbled the Omaha Line.

The Illinois Central Pushes the Fight by Cutting Rates to Omaha.

CHICAGO, Dec. 5.—Rumors were current in railroad circles yesterday morning that some agreement had been effected in New York by which the present war on northwestern traffic would be brought to a close. It was also stated that Vanderbilt had succeeded in securing a majority of the stock of the St. Paul & Omaha road, and that he had requested President H. H. Porter of that company to step down and out.

Mr. Porter stated that he had heard of the rumors, but there was not the least foundation for them, and they had evidently been circulated by Wall street operators for speculative purposes. He had received no communication from Vanderbilt, asking him to resign, or any other communication. He did not think that Vanderbilt had any more interest in his road now than he had a year ago. There was no change whatever in the situation, and none was likely to occur until after the meeting to be held in New York Friday.

The presidents and general managers of the various roads interested in the northwestern war expressed their opinion that the rumors were unfounded. They stated that they had no intention of leaving the fight, and that they would continue to fight until they had won.
